UN SDGs

Just energy transition for UN SDGs

A **just energy transition** is pivotal in achieving the United Nations Sustainable Development Goals (UN SDGs) as it aims to ensure that the shift to sustainable energy systems is **equitable** and **inclusive**, addressing various **social**, **economic**, and **environmental** dimensions.

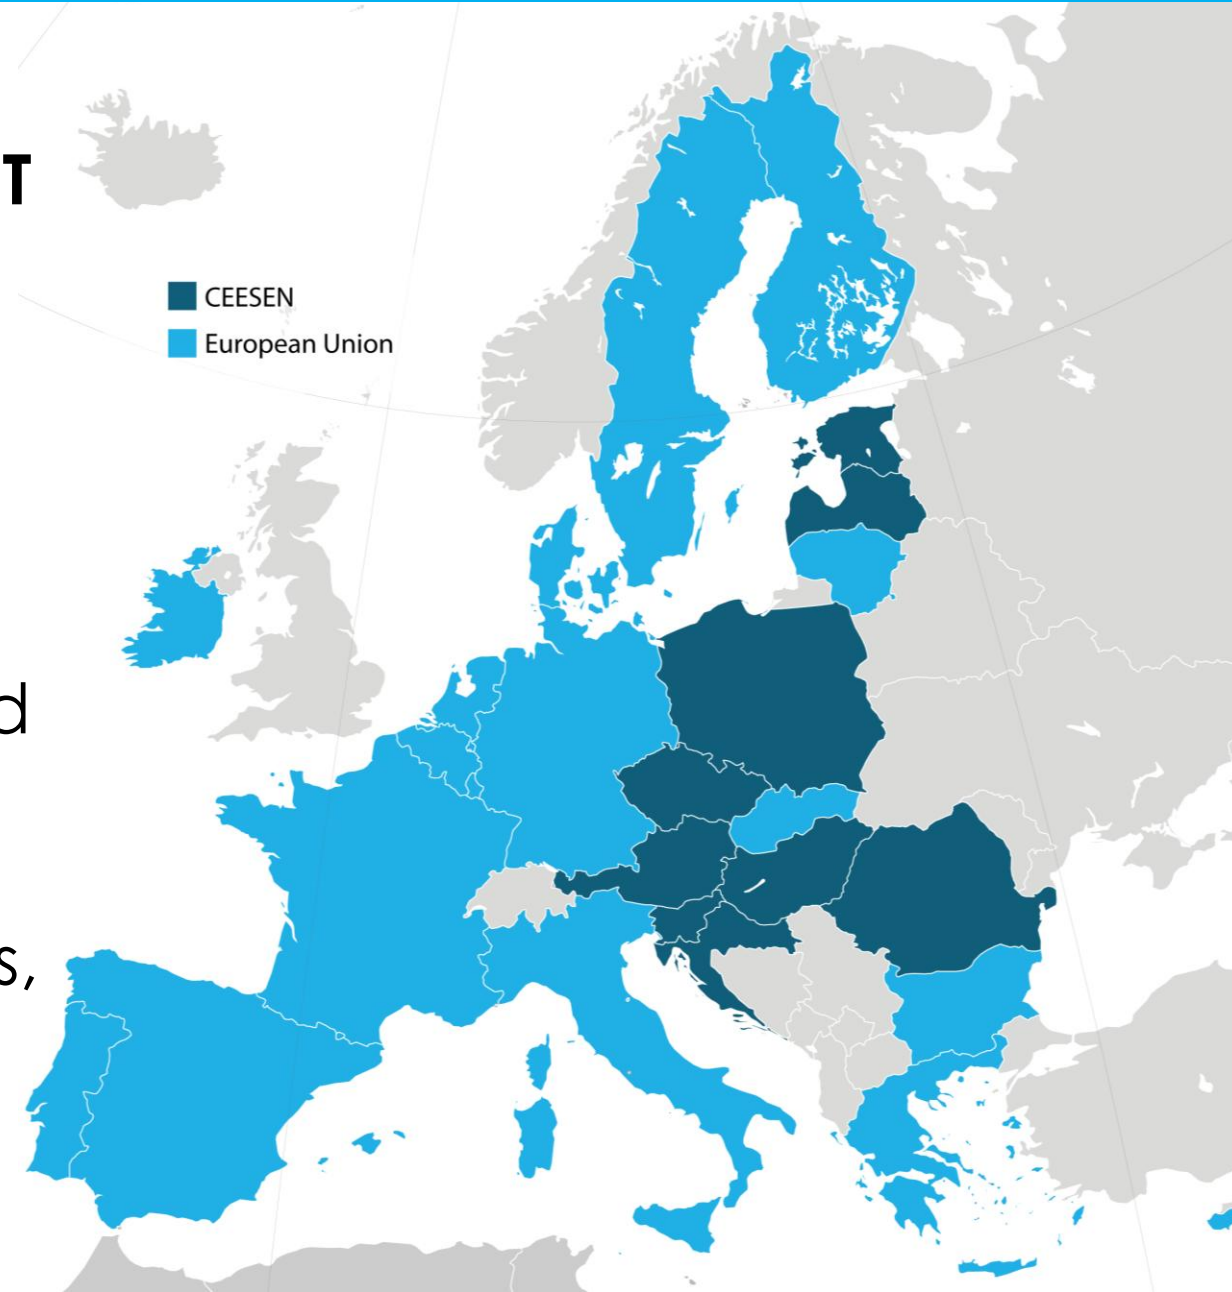

Just energy transition = impact on UN SDG goals

HELPING CITIES IN CEE REGION ON THEIR WAY TO CREATE AND IMPLEMENT SUSTAINABLE ENERGY AND CLIMATE ACTIONS

Our aim is to

- Improve skills and knowledge of local actors on green transition, and
- increase communication, cooperation and interaction between local public administrators, stakeholders and policy makers at multiple levels and in multiple directions.

Climate protection is six times cheaper than inaction.

*Kotz, M., Levermann, A. & Wenz, L. The economic commitment of climate change. Nature 628, 551–557 (2024).

The Importance of Joining the Conversation!

Coordinated policies, inclusive
decision-making, and a focus
on energy justice are essential.

KEEP
CALM
AND
TRANSITION
ON

Thank you!
